2012年10月23日 14:20

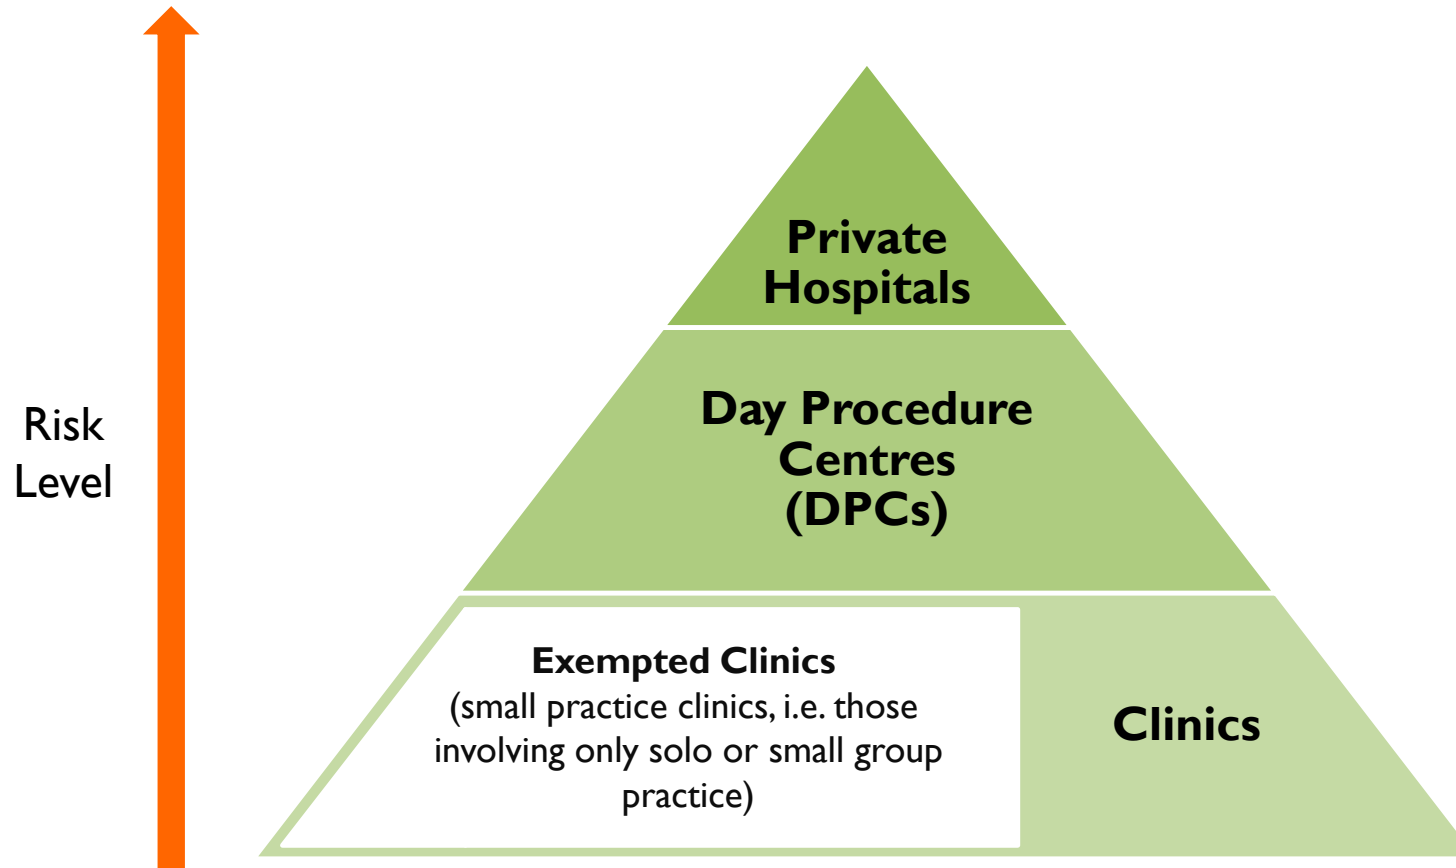

- Rapid growth in delivery of ambulatory surgical and ambulatory care services
- High-risk procedures no longer only performed in hospital setting

REVIEW OF REGULATION OF PRIVATE HEALTHCARE FACILITIES

PRIVATE HEALTHCARE FACILITIES ORDINANCE (CAP 633)

- **Health services establishments:** In addition to the above types, the Secretary for Food and Health is empowered to declare new categories of health services establishments in the future, so as to cater for possible regulatory needs in response to the evolving medical technology and changing needs of our society

IMPLEMENTATION IN PHASES

Private Hospitals

- Provide medical service with lodging
- Receiving pregnant woman for childbirth
- Commencement of licence application: **Mid 2019**

Day Procedure Centres

- Without lodging
- Carrying out scheduled medical procedures
- Commencement of licence application: **2020**

Clinics

- Without lodging
- Not carrying out scheduled medical procedures
- Commencement of licence application: **2021 (at the earliest)**

SCHEDULED MEDICAL PROCEDURES

- Surgical procedure
- Endoscopic procedure
- Dental procedure (maxillofacial surgery)
- Chemotherapy
- Haemodialysis
- Interventional radiology and lithotripsy
- Anaesthetic procedure

CODE OF PRACTICE

- Issued by the Director of Health
- Compliance with Code of Practice is a licensing condition
- Sets out standards to be complied by relevant type of licensed PHFs

OBJECTIVE OF THE SEMINAR

- To brief engineering and related healthcare professionals on the **requirements and standards** of healthcare engineering systems of private hospitals in Hong Kong
- To introduce the requirement of **certification of healthcare engineering systems** by registered professional engineers of the relevant disciplines
- To share their experience on the application of **internationally acceptable healthcare engineering standards** to hospitals

Another seminar on healthcare engineering requirements in day procedure centres will be held later this year.

THANK YOU
